

PEN-N-PAPER FORMAT OF PCB EXAM

Examination is knocking at the door and now it's time to prepare for the NEET Preparatory Tests in real environment. Accordingly, we have designed the remaining PCB Exams (Set 17, 18, 19, 20) in the following format-

1. A *.PDF file of **OMR Test Form** will be uploaded in Important Notes section of Dashboard.

Take 2 copy print out of the OMR TEST Form.

2. As per schedule exam-time the question paper (*.pdf) will be uploaded in the Important section of Dashboard.

3. Wear mask and gloves and start the exam. The exam duration is 3 hours.

4. Use a black/dark blue ball pen to fill the test forms.

5. The solution will be provided the next day at 5.00 pm, calculate the marks and submit it to Sir.

Henceforth the PCB exams will not be taken in Online Home-test based format. It will be taken in Pen-n-Paper (OMR Test) style format.

Wearing mask n gloves for 3 hours during exam is must because that will be a practice for the students as NEET will be held in a similar kind of environment.
